Generac microgrids combine renewable energy and advanced management tools to create reliable, sustainable power systems, helping schools stay focused on empowering the leaders of tomorrow.

Togo Solar Outdoor Energy Storage Cabinet Hybrid Type Equipped with a robust 15kW hybrid inverter and 35kWh rack-mounted lithium-ion batteries, the system is seamlessly housed in an IP55-rated cabinet for ...

A school hybrid storage inverter seamlessly integrates solar power generation with energy storage. This technology allows schools to harness solar energy during the day, which can then be used when the ...

The Cabinet offers flexible installation, built-in safety systems, intelligent control, and efficient operation. It features robust lithium iron phosphate (LiFePO₄) batteries with scalable capacities, supporting on-grid and ...

We recently supplied our industrial-grade 20KW 3-phase inverter to provide backup power for critical systems at a school infrastructure project. Our inverter solution met the key requirements:

The ATESS bypass cabinet is designed to be used in conjunction with the bidirectional battery inverter, enabling a seamless and automatic switch between grid-connected mode and off-grid mode for your battery energy ...

By incorporating inverters and batteries into classroom infrastructure, schools can create a sustainable learning
