-----

Lead Carbon Series battery has excellent charging acceptance and super large discharge performance which has been widely applied to various fields.

OPzS series is traditional tubular flood lead acid batteries. OPzS series provide excellent deep cycle life as well as extra-long float life, and recovery performance because of the tubular positive plate and ...

2v VRLA cells are rechargeable lead-acid battery banks used for power backup as a battery bank with high rates of discharge in Solar, Telecom, Data centres, and Standby applications.

The grid | power V L (series OPzS) is a low-maintenance, vented lead-acid 2V cell in conventional technology with liquid electrolyte (dilute sulfuric acid).

Features: Flooded Lead Acid: Handcrafted in the U.S.A. with premium components Our exclusive XC2(TM) Formulation delivers the Highest Total Energy Delivered Over the Life of the Battery SpeedCap(TM) ...

Nemix offers a comprehensive range of battery solutions, and has been supplying products globally for nearly 15 years. Our Tubular batteries, praised for their reliability and quality, are widely used in new ...

Advanced Low Maintenance Tubular Plate Batteries for Renewable Energy Storage. Filled with Acid. Suitable for Off-Grid Photovoltaic Application The OPzS batteries from Hoppecke are filled with liquid ...

The BAE OPzS Series flooded tubular plate cells are one of the most enduring lead-acid batteries on the market today. They are ideally suited for stand-by operations as well as for capacitive loads.

The SPRE 02 1255 is a 2-volt deep-cycle flooded battery engineered for solar power and renewable energy applications.

Review specifications and compare prices for 2V solar batteries from all the top brands.
