Our AC-output sine wave products are available with power ratings from 30VA to 15kVA, for 50Hz, 60Hz or 400Hz applications. These designs use proven microprocessor controlled high frequency PWM technology ...

400Hz industrial sine wave inverters, 12 VDC 24 VDC or 48 VDC inputs, 114 VAC output

These compact sine wave inverters are cooled by conduction and natural convection - no fans required. High voltage DC-AC sine wave inverters accept wide input ranges of 450V to 800Vdc. High frequency PWM ...

JUPITER 2000 Watt Continuous/4000 Watt Peak Modified Sine Wave Power Inverter This item has an average rating of 0 stars from 0 reviews. [Click to see all reviews](#)

The SC100 is a lightweight 400Hz static inverter. This model utilizes the latest state of the art, solid state circuitry to invert a 28 Vdc input to a 115 Vac, 400 Hz sine wave output.

Engineered to run cooler and featuring a fanless design, the TI254 saves energy and reduces weight. With a lightweight and compact design, the TI254 includes ...

These rugged pure sinewave DC-AC inverter systems are available in rack mount, freestanding or wall-mount NEMA cabinet, and custom enclosure configurations to suit applications with tight space constraints.

The SEA 150 400Hz sine wave static inverter is primarily designed for military, ...

The high frequency pulses of SPWM results in smoothed filtration of inverter output into pure sine wave by using small sized capacitors and inductors as a filter. This inverter circuit provides a pure sine wave of 400Hz

...

400HZ sine wave inverter

Engineered to run cooler and featuring a fanless design, the TI254 saves energy and reduces weight. With a lightweight and compact design, the TI254 includes overload, short-circuit and ground fault interrupter ...

The SEA 150 400Hz sine wave static inverter is primarily designed for military, ground and airborne instruments including compasses, gyros, radar and navigation equipment. Solid state circuitry inverts a 28 VDC to ...
