Recycling broken PV glass (cullet) offers a partially sustainable solution by reducing dependence on virgin Sb and extending the lifespan of existing reserves.

Our solar glass with renowned "Anti-soiling" and "Easy to clean" coatings. High performance solar glass for Bifacial modules, Glass-glass modules, Floating PV modules, Rooftop PV, BIPV, Car ports, ...

Borosil has developed NoSbEra: World's first Antimony-free solar glass. The world is staring at a burning issue of the most hazardous substance "Antimony" present in solar glass.

AGC offers extra clear float glass products for a broad range of solar applications. Your single source: High-efficient float glass production, glass coating, glass processing as well as high-capacity ...

Cleaner Chemistry, Clearer Glass - Homerun's ultra-pure Brazilian silica enables 100% antimony-free solar glass production - a first for the Americas...

The solar glass sector is ready to take back the European manufactured high-quality cullet at the end-of-life stage of PV panels and use it to produce new solar glass for the European solar PV industry.

This article explores a new process for extracting valuable antimony from the glass of solar panels, aimed at solving disposal challenges in the 2030s.

Until then, the shimmering surface of a solar farm will remain, in part, a mirror of our antimony problem: the glass looks beautifully simple, but the chemistry and geopolitics behind it are ...

However, glass manufacturers have been hard at work since then trying to eliminate antimony from solar glasses where it is considered necessary to use it. This article examines the breakthroughs recently ...
