Argentina Lithium & Energy Corp is focused on acquiring high quality lithium projects in Argentina and advancing them towards production in order to meet the growing global demand from the battery sector.

Argentina's energy planners have a not-so-secret weapon: hybrid solar-lithium farms where panels and batteries work together like tango partners. The result? Grid stability that makes ...

This Wednesday, Argentina's sixth lithium plant began operations in the province of Salta, exclusively owned by the Chinese company Ganfeng Lithium.

Argentina's vast lithium resources are critical to meeting surging global demand primarily for electric vehicles and large-scale energy storage systems. With this, Argentina is positioned to be a key ...

The Rincon Lithium Project - a large, low-cost lithium-brine asset located in the heart of the "lithium triangle" in Argentina - will be a valuable source of rapidly produced, high-quality lithium for the ...

As the world accelerates its move towards electrification and sustainable energy solutions, Argentina's contribution of refined lithium products will be indispensable for all major battery chemistries, ...

A testament to this forward-thinking approach is the imminent launch of its premier lithium battery plant. This venture, realized in partnership with the U.S.-based Livent Corp, underscores Argentina's ...

Argentina's attempts to exploit its huge reserves of lithium - a strategic mineral crucial to the global green transition - has prompted public discussion on how best to link these resources to ...

Argentina will start operations at the first lithium battery cell factory in Latin America before the end of the year. The country aims to boost its position in the region's electric transport and ...

Argentina Energy Storage System Lithium Battery Plant

Buenos Aires -- Last week, Argentina's President Alberto Fern& #225;nde#223; visited the first Argentine lithium cells and batteries manufacturing plant belonging to Y-TEC, a company that is part of ...
