-----

In the final days of 2018 a 100-megawatt solar thermal generating station capable of running around-the-clock, 365-days-a-year connected to the Northwest China regional power grid.

Recognizing the potential of renewable energy in addressing poverty in some of its impoverished areas, the NEA and the State Council jointly issued a work plan to implement the Solar Energy Poverty ...

A 150 MW/300 MWh grid-forming shared energy storage power station in Yongde County, Lincang City, Yunnan Province, was recently put into operation. The project is said to be the first of its kind in the ...

The solar thermal energy storage power station can generate electricity with or without direct sunlight, thanks to the heliostats and the molten salt, while achieving stable all-day power output.

It is the world's first project to use a trough-type photo thermal power plant as the main power source, realize clean energy from an isolated grid operation at a highaltitude and provide a 24-hour safe, ...

Formerly known as DLG Electronics, PYTES started its business in Shanghai over 18 years ago.

Hunan Miluo Shuangheba Poverty Alleviation solar farm is an operating solar photovoltaic (PV) farm in Baitang Town, Miluo City, Yueyang, Hunan, China.

In 2006, he received two of these panels through a government project promoting solar power among locals. Since then, the panels have become part of his essential gear, accompanying ...
