We are serving customers in Texas as the only electricity provider to offer customers a home battery, monthly energy service, and installation all-in-one, with no requirement of solar installation.

Base Power is a licensed electricity provider operating in Texas's deregulated electricity market, and it functions as a virtual power plant (VPP). Its model is simple but transformative:...

Base provides affordable energy with automatic backup power--no solar required and switching costs covered. Base provides the most affordable home backup in Texas--up to 48 hours of outage ...

Austin-based startup Base Power is installing a fleet of batteries at homes across Texas to support the grid--and helping homeowners get cheap access to backup power during disasters.

Base Power, an energy company founded in 2023 and headquartered in Austin, officially launched in Houston on Sept. 24, according to a news release.

Get a clear, no-surprises energy plan with Base Power. Guaranteed below-market electricity rates, no hidden fees--plus built-in home backup for ultimate reliability.

These companies, especially Tesla, already have access to in house battery manufacturing and will win any price war with Base. But Base Power should be given credit for ...

You don't need solar to use Base because the batteries are designed to store energy directly from the grid. This allows you to access reliable backup power and lower energy costs without relying on solar ...

Though many power companies are focusing on building giant industrial batteries as a way to store energy -- often generated by wind or solar facilities -- and provide it when demand rises, ...

Base Power is currently buying much of its battery technology and the energy it delivers from suppliers while

Base Station Energy Company

working on its own battery storage system that can be installed more quickly.
