Our projects contain flexible assets tactically positioned at points of persistent grid congestion and volatility.

The gen-tie line would connect the 100-megawatt photovoltaic Black Mountain Solar project and 50-megawatt battery energy storage system located on private lands to the existing ...

Black Mountain has been an exceptional partner to work with and we are excited to throw our development, EPC and financing expertise behind these assets to move them across the finish line, ...

Now, a new neighbor could upend the bucolic setting. Texas-based Black Mountain Energy Storage plans to build a large energy storage plant on the lush, undeveloped plot of land to ...

The document outlines the various advanced energy storage technologies employed by Black Mountain Energy and the numerous benefits they present, such as increased reliability in ...

Lithium ion battery storage cabinets represent a cutting-edge solution for safe and efficient energy storage management. These specialized cabinets are engineered to house lithium ion batteries in a ...

We were founded in 2021 to bring reliable energy storage capacity to the electric grid that will enhance system reliability and enable greater reliance on renewable generation. We focus on investing in ...

GridStor, a developer and operator of utility-scale battery energy storage systems, announced today that it has acquired a battery storage project in Oklahoma, totaling 200 MW / 400 MWh to be developed ...

The Black Mountain Gravity Energy Storage Project is redefining how we store renewable energy. As one of the most anticipated gravity-based energy storage initiatives, it combines ancient physics ...
