By integrating UKSOL modules, Bolpegas ensures the delivery of world-class solar solutions precisely tailored to Bolivia's unique conditions and energy demands.

The new solar photovoltaic plant, with an installed capacity of 120 MW, the largest of this technology in the country, will be built in the municipality of Tupiza, Sud Chichas province in the department ...

Construyendo la red eléctrica del futuro. Solaria es una empresa pionera en Bolivia que ofrece soluciones integrales en sistemas solares, encargándose de todo el proceso para adquirir tu propia energía.

Overall, the initiative provided 14 organizations in the three communities with a hybrid technology that uses a combination of solar and conventional energy to pump water. Importantly, it also provided tools to ...

UKSOL Ltd is celebrating the commissioning of Bolivia's largest private solar plant, for which it supplied 4,500 of its 670-watt, high efficiency solar modules.

The Altiplano plateau in western Bolivia has some of the world's highest and most consistent levels of solar radiation, creating high potential for solar photovoltaic power in the region, but structural ...

Currently, at least 15 Ancotanga community members work at the Photovoltaic Solar Plant and are among the personnel in charge of the security and cleaning of the solar panels, among other low-ranking ...

Bolivia's Santa Cruz region has become a focal point for solar energy development. With over 2,000 hours of annual sunlight and government incentives, the area offers ideal conditions for photovoltaic (PV) module ...

The ethically sourced UKSOL modules for this project are designed to withstand harsh environmental conditions, while maintaining high efficiency, and are provided with a British-backed 30-year ...

Bolivian solar modules

This analysis explores the business case for a solar module manufacturing facility in Bolivia focused on supplying the country's rural electrification programs --a market driven not by speculation but by ...
