Patriot Power Cell

Should you invest in emergency solar power?

One way you can have a backup plan as an American citizen is to invest in an emergency solar power setup. This provides a means for you to harvest the sun's power to generate at least some of your own electricity, giving energy in potentially perilous times. But there are lots of options on the market, so how do you know what's worth getting?

What are the best emergency solar companies?

Goal Zero is easily one of the most famous emergency solar companies out there. Within various ham radio forums I've frequented in the past, this company gets mentioned again and again. The Yeti 3000x is a big generator with 2,000 watt-hours.
