Je nach Typ des zu lagernden Akkus und auch der Anzahl der E-Bikes, deren Lithium-Batterien gelagert werden sollen, bieten sich unterschiedliche Boxen und Kisten an, die zum Teil auch feuerfest sind.

Maximize energy efficiency with our innovative rechargeable battery containers designed for secure and scalable storage solutions. Enhance sustainability and reduce costs today!

The LithiumSafe(TM) Battery Box is designed for safely storing, charging and transporting lithium ion batteries. The most intensively tested battery fire containment solution on the market, engineered to ...

The Energy Storage Controller Inverter Integrated Machine combines the functions of inverter, MPPT solar controller and utility charging to provide stable power supply for power-using equipment in ...

The EnerC+ container is a modular integrated product with rechargeable lithium-ion batteries. It offers high energy density, long service life, and efficient energy release for over 2 hours.

Discover high-quality lithium battery storage bags built to contain fires and explosions. Versatile solutions for all your battery needs.

Plug& Play lithium-ion battery storage container; Various usage scenarios of on-grid, off-grid, and micro-grid. All-in-one containerized design complete with LFP battery, bi-directional PCS, isolation ...

A containerized energy storage system (often referred to as BESS container or battery storage container) is a modular unit that houses lithium-ion batteries and related energy management ...

It features a high-quality container enclosure pre-installed with a battery rack, allowing clients to integrate their own battery packs, cooling systems, fire suppression systems, and other components.
