Learn how to spot solar panel fraud, avoid predatory contracts, and take action if you've been scammed, with guidance from Prevost Law Firm.

This article explores the most common solar panel scams, provides tips to recognize red flags, and offers guidance on protecting yourself from fraudulent solar companies.

And while they promise free or low-cost solar panels, or offer you huge rebates, tax credits, or utility incentives to pay for those solar panels, those are lies.

Honest businesses will tell you exactly how much it'll cost to get and install solar panels. But, even though a solar panel company may sound credible and never utter "free," you can't stop...

This guide will help you identify real vs. fake solar panels, understand solar panel prices, and avoid solar panel scams when purchasing solar panels for your home.

What actually happens: The scammers either make off with your deposit or they install the panels but never produce the rebate. Also, the panels often aren't as efficient as they claim.

If you've received an offer for "free solar panels," it could be a scam. Always look for businesses you can trust - like Accredited Businesses using the BBB Seal. Here's what you should ...

While many state and local solar incentives still exist, they vary widely depending on your location, tax situation, and the type of system you install.

It doesn't matter what they're selling--a new roof, driveway repaving, tree trimming, or solar panels--never hire someone who shows up at your door. You have no way of knowing who ...

Does the photovoltaic panel scam still exist

That's why we put together these tips to avoid getting ripped off when buying solar panels -- backed by expert advice. Here's how to dodge solar panel scams and identify red flags.
