What is a field cabinet?

Field cabinets are engineered to protect sensitive data network and electrical equipment in demanding outdoor environments, such as road traffic management and intelligent transport systems (ITS). These enclosures provide robust protection against harsh weather, corrosion, and physical impact, ensuring reliable operation in heavy-duty applications.

Are Datacom cabinets ip55/ip66 rated?

Cabinets are available with integrated thermal management using air conditioner to control internal temperatures to protect sensitive equipment. DATACOM offers IP55/IP66 rated floor standing equipment Cabinets. Cabinet sizes are Customizable ranging from 9U internal space to 46U special height sizes. External size is 650x650mm with a base of 200mm.

Why should you choose a field cabinet?

These enclosures provide robust protection against harsh weather, corrosion, and physical impact, ensuring reliable operation in heavy-duty applications. Constructed from powder-coated galvanised steel, our field cabinets meet industry standards with IP66 dust and water ingress protection and IK10 impact resistance.

Are racktech cabinets IP66 rated?

The Racktech IP Series cabinets are IP66 rated and designed to protect sensitive data network equipment. The cabinets are precision built to ensure a consistent high quality. The strong powder coated galvanised steel cabinets are suitable for internal environments and heavy-duty outdoor applications.
