Choosing the right base station equipment is essential for building a strong, reliable, and future-ready telecom network. Whether you're deploying a new site or upgrading existing infrastructure, our ...

CableFree offers Band 46 5GHz LTE Base Station and Outdoor CPE devices for operation in Unlicensed 5GHz spectrum, enabling smaller operators and private customers to build LTE without ...

Designed with lower transmit power in mind, this basestation configuration is deployed in maritime/vessel environments, campus networks and test labs around the world.

goRAN(TM) integrates a full-software Release 15 Radio Access Network optimized for private networks, with standalone NB-IoT and LTE-M support, including VoLTE.

The BPN942 part of the BPN Series is a Base Station Antenna for a Private Network. The 7-cable BPN antenna includes 4x Sub-6 5G LTE elements, 2x WiFi 6E elements and 1x GPS element.

The Baicells Stellar227 is a compact indoor 5G NR base station designed for sub-6 GHz private and enterprise networks. Supporting standalone (SA) deployments across Bands n41, n48 (CBRS), and ...

Bastion BPU is a small cell base station (eNodeB) for scalable private 4G LTE networks. The Bastion system is comprised of the Bastion Processing Unit (BPU) and up to four (4) Bastion Remote Radio ...

CUAV LBA 3 Communication Micro Base Station Brief: The LBA 3 private network micro-base station system is a high-performance long-distance and large-bandwidth link solution independently ...

Discover the power of private 5G and LTE networks. Semtech private network solutions offer the flexibility, security, coverage, and reliability that mission-critical applications demand, all while ...

Fully automatic power private network base station equipment

Qorvo products are designed for multimode base stations. Whether you're needing high efficiency, low noise or high linearity, Qorvo's portfolio offers market-leading performance and is ...
