GoodWe ESA Series is an all-in-one solar and storage solution that integrates the inverter, battery charger, UPS-level switching, and battery enclosure into a pre-wired modular system for easier and ...

EcoSmart Home enables whole-home backup. This robust solution ensures uninterrupted power during grid outages, swiftly switching to a backup source to keep essential appliances running. It offers ...

New three phase ESA all in one system integrates solar, storage and energy management in a single modular solution. Designed for easy installation and flexible expansion up to 108 kWh of ...

This flexibility allows families to customize storage for anything from essential backup power to covering the entire home's daily energy use. Installation is quick and convenient. With one-click configuration ...

GoodWe EcoSmart Home offers a suite of solar and energy storage solutions for households, enabling management of energy generation, storage, and usage.

GoodWe introduces its three-phase ESA all-in-one system for residential and small commercial use, delivering efficient, scalable energy storage solutions.

In this "solar + storage" system, the battery stores self-generated energy during off-peak periods and discharge it when the electricity prices peak, minimizing surplus energy export to the grid.

Available in 3-10 kW power ratings and stackable with up to six batteries for a total of 48 kWh, the system
