This issue can of course be avoided by simply keeping the rows of panels sufficiently far apart, but generally one needs to minimize this inter-row spacing to most efficiently utilize the available site.

As the title says. Want to play djinn/plants. How can I proc chilled ground? Is there reliable way to get physical spell as cold? Ty in advance!

Timezone: The calculator estimates UTC offset from longitude (no DST). If you're near a timezone border or using daylight saving time, override the timezone value. Site realities: Terrain slope, ...

Free solar panel spacing calculator to determine optimal row distance based on latitude, tilt, panel height, and season. Reduce shading losses and maximize rooftop or ground-mounted solar efficiency.

Best way to play Haunting Ground? I found out about this game not even 24 hours ago and I'm very interested. However I'm not sure abt the best way to play. Do I choose the EU or US ...

The standard mathematical approach used to calculate photovoltaic (PV) array spacing contains a number of assumptions that limits its use to PV arrays installed on ...

To take the guesswork out, we've built a Solar Panel Row Spacing Calculator. Enter your site's latitude, tilt, and azimuth, and it will calculate the minimum spacing needed to avoid shading at ...

There are three metal rods near my house, one is obviously a ground rod since it's near the electrical meter and there's a wire coming down from I assume the back of the junction box for the circuit ...

The proper way to apply ground scale factor to distances depends on the specific surveying application and the coordinate system being used. However, in general, the ground scale ...

this is from the ground items plugin. hold alt, it'll bring up a more details item overlay that lets you disable text for specific items with the onscreen - button. alternatively just open the plugin settings and ...

No, it was just ground zero because it was designed for new players+early game quests not to get stomped by geared gigachads, every other map is a free for all Reply reply More replies

IMO they need to do a full mount pass and give ground, water, and air more definitive niches. Which, in current state of game, prolly means nerfs for flying mounts unfortunately.
