A high-capacity 6kW single-phase inverter designed for complete off-grid systems, delivering reliable power for homes, farms, and small businesses. Growatt's 6kW off-grid solar inverter features 8000W ...

In addition to solar inverters, Growatt also offers a range of energy storage solutions, including lithium-ion batteries and hybrid inverters. These products allow customers to store excess energy generated ...

Growatt 6000es is an enhanced version of an off-grid inverter, mainly designed for home solar systems. It has two MPPT, the maximum solar input can reach 8kw, and up to 6 can be connected in parallel ...

In addition to solar inverters, Growatt also offers a range of energy storage ...

Growatt SPF 6000es plus is a multifunctional off grid solar inverter, integrated with an MPPT solar charge controller, a high frequency pure sine wave inverter, and a UPS function module in one ...

The 6kW Growatt (MIN 6000TL-XH-US) hybrid inverter offers a reliable and efficient solution for homeowners seeking to maximize their solar energy usage. This hybrid inverter supports both grid ...

With its compact and user-friendly design, the Growatt SPF 6000T is an all-in-one unit that can provide power via solar array, 48v battery bank, or generator/utility.

With its advanced grid-tied technology, the growatt off grid 6kw inverter Plus is a perfect choice for households and businesses who are looking to harness the power of solar energy while ...

Scalable & Flexible - Grid and Generator two AC inputs with integrated transfer switch - Up to 6 units in parallel for capacity extension - Plug-and-play quick connection PV terminals

With its advanced grid-tied technology, the growatt off grid 6kw ...

Growatt 6kW off grid inverter

The Growatt SPF inverter is known for its high efficiency, reliability, and flexibility. It can work with both on-grid and off-grid solar systems, and can be used for backup power during power outages.

This inverter can work with or without batteries. The whole system also need other devices to achieve complete running such as PV modules, generator, or utility grid.
