-----

Hanergy Holding Group Ltd. (Hanergy) is a Chinese multinational company headquartered in Beijing. The company is focusing on thin-film solar value chain, including manufacturing and solar parks ...

China headquartered PV thin-film equipment and module producer Hanergy Thin Film Power Group (Hanergy TF) has created a completely new business model in 2017 that provides new industrial ...

Since entering into the thin film power generation industry in 2009, the Group has been actively involved in the investment and research of the thin film solar energy technology, adopted as the Group's core ...

Hanergy is focused on the thin-film solar value chain, including manufacturing of solar modules and equipment, and developing of solar parks. It develops copper indium gallium selenide (CIGS), gallium arsenide (GaAs) and silicon heterojunction thin-film technologies. Hanergy also operates as an original equipment manufacturer, manufacturing thin-film components for various companies in the automotive industry. It cooperates with Audi, FAW-Volkswagen, Guangqi Honda, Tesla, and Bollor&#233;, as well as dom...

Integrated with flexible and highly efficient thin-film solar cells and modules, the full solar power vehicles with zero emissions use solar energy as its main source of driving force through a series of precise ...

Through global technical integration and independent innovation, Hanergy has become a world leader in thin-film solar technology.

Hanergy, a multinational clean energy generation company began almost 25 years ago and grew to be the World's largest thin film solar (CIGS) technology company with installed capacity over 6GW ...

Hanergy manufactures high efficiency thin film solar modules. Almost 95% of the production materials are manufactured internally and supplied for solar module manufacture.

# Hanergy solar film power generation

Hanergy's solar power generation installation solutions are redefining renewable energy with flexible thin-film technology that's turning roofs into power plants - sometimes so sleek you might mistake ...
