---

The cabinet is designed specifically to protect it from human damage, water, dust and other damages. The cabinet allows natural wind cooling through filtered vents on front door and under lip of rain hood

The iCON 100kW 215kWh Battery Storage System is a fully integrated, on or off grid battery solution that has liquid cooled battery storage (215kWh), inverter (100kW), temperature control and fire safety ...

The state-of-the-art HJ-series BESS Cabinet applies our proprietary liquid-cooling technology to keep temperature differences below 2°C among all battery cells, greatly exceeding the performance of ...

AZE's All-in-One Energy Storage Cabinet & BESS Cabinets offer modular, scalable, and safe energy storage solutions. Featuring lithium-ion batteries, smart BMS, and thermal management, they're ideal ...

Our BESS systems are all-weather suited, with three different cabinet variations to suit any weather environment. With isolated output and online UPS for grid-connected applications, you have access ...

The BESS-208kWh system is designed for high-efficiency operation in smaller commercial and backup power applications. It offers advanced temperature control, high cycle stability, and rapid ...

Integrated with battery cells, BMS, HVAC, and fire suppression within a high IP outdoor cabinet, it comes pre-engineered and pre-tested, reducing installation time and costs significantly.

High Scalability: Modular architecture allows for flexible capacity expansion. Robust Protection: IP54 or higher enclosure rating, resistant to dust, moisture, and extreme temperatures. Excellent Weather ...

This highly integrated system combines a small physical footprint with high-energy density to deliver a low-carbon, high-yield energy storage solution for modern enterprises.
