When is it time to replace school lockers?

School may be out soon but the time to prepare to repair, upgrade, or otherwise replace lockers is now. When the piles of old chewing gum have hardened into stalactites, when students are selling limited shelf space on the black market, when you just can't figure out where that smell is coming from, it's time to replace your school lockers.

How long does it take for a lock to disappear?

****Correction****: When it reaches 180 days, you can punch the lock and it will disappear. Can someone kindly tell me how much time it takes for a small, big or huge lock to be breakable? It takes 180-181 days to remove the locks. Can't touch this. ****Correction****: When it reaches 180 days, you can punch the lock and it will disappear.

How long does it take to clean a flywheel housing?

Twenty hours of labor doesn't sound right for cleaning a flywheel housing; it should be done in one day at a dealer, even if they need to button up a few things the next morning. Approx. half or less of the quoted time should be necessary.

How long does a demolition take?

While smaller residential demolitions may take days to weeks to complete, larger commercial or industrial demolitions can span several months or even years. In general, the demolition process follows a systematic timeline, starting from planning and preparation and culminating in site cleanup and restoration.
