How much does curtain walling cost?

Standard curtain walling systems cost between  $\pounds 300$  to  $\pounds 600$  per square metre. High-performance or bespoke curtain walls with enhanced insulation, structural reinforcements, or premium finishes can range from  $\pounds 800$  to  $\pounds 1,500$  per square metre.

Why do curtain wall systems cost so much?

The size and dimensions of the curtain wall system play a crucial role in determining the price. Larger systems require more materials, increased fabrication time, and specialized transportation. Additionally, oversized glass panels may need additional support and engineering considerations, resulting in higher costs.

How do I get accurate price quotes for a curtain wall system?

To obtain accurate price quotes for a curtain wall system, it is essential to provide detailed project specifications, including design drawings, material preferences, performance requirements, and project timeline. This information will enable suppliers and contractors to provide comprehensive and accurate cost estimates.

Are energy-efficient curtain walls a good investment?

Higher-performing systems that meet stringent standards and certifications, such as LEED or BREEAM, may come at a higher price. However, investing in sustainable and energy-efficient curtain walls can yield long-term benefits by reducing operational costs and enhancing a building's overall value.

Learn how much curtain walls cost, including average price ranges per square foot/meter, key factors affecting cost, system types, and budget tips for project.

Cost of installing ACP curtain walls ranges from \$45 to \$150 per square meter, depending on materials, labor, and project complexity.

Explore the factors that affect curtain wall cost, including materials, installation, and design, to help you estimate expenses for your project.
