Here's a Quick video of how to use a mobile CB radio as a base station In order to turn a mobile cb radio into a base station you need a 13.8v power supply...more

Planning to convert a mobile CB into a monster base station. I have been looking at some older radios like the DAK radios and others, but they are just some expensive and somewhat lacking ...

Mobile radios are typically designed to operate on a 13.8 volt electrical system, which is what you have when the car's alternator is charging the battery. The range is usually plus or minus 15 percent of ...

There are external modules that connect to a power supply, an battery and the load or repeater. These modules will power the repeater off the power supply and also allow the power ...

How to convert a stationary base station provided by Vence Corp into a mobile base station. Your conversion may look different depending on the type of trailer you use with your conversion.

Don't worry too much about how much the power supply can give, it's the draw that matters; the midland won't draw more than a power supply can handle unless maybe it's a wallwart configuration.

Can you use a mobile CB radio as a base station? Absolutely! ? In this video, we'll show you how to set up your mobile CB radio at home with an AC to DC power supply and the right...

Another very common power source is a deep cycle battery. You can connect to the radio to a battery, then use a battery charger or solar panel (during the day of course) to charge it back up.

BASE STATIONS Base station enclosures convert mobile radios to base station service economically. Saves money and looks great in the front office or corporate environment. You do not need a PayPal ...

How to get power from the power cabinet of mobile base station

Mobile substations are portable power distribution systems that can be quickly set up in different locations. They provide temporary or emergency power to areas without grid access, like ...

I was looking to setup a mobile radio base station power cabinet in my home to transmit on the local GMRS "buff" repeater! I wanted to see if using a magnet-mount antenna on top of the ...
