When exploring options for acquiring used solar photovoltaic (PV) panels, it's crucial to assess not only where to buy them but also the implications of such purchases, including ...

Get paid for solar panels from EPC, commercial, and utility-scale projects. We help EPCs, developers, and asset owners recover value from surplus, obsolete, or lightly damaged solar panels at scale.

We buy and sell pre-owned solar panels for reuse. If you wish to dispose of unused panels sitting in a warehouse, dismantled panels from solar power plants or unnecessary panels, feel free to contact us.

Learn the full scope of solar decommissioning. Key topics include panel recycling, dismantling best practices, and calculating cost estimates for PV facilities.

We buy and sell surplus solar panels and modules. All products are tested and ready for use. Need to clear extra stock or purchase panels at the best price? We can help.

Ever wondered what happens to solar panels after their 25-30 year lifespan? The photovoltaic disassembled panels market is booming like a California wildfire, with the global solar recycling ...

At Surplus Solar Products Inc. we purchase both new and used surplus solar energy material then match that material with you. Our stock is constantly changing, but frequently includes solar electric ...

Our expert technicians carefully inspect each used solar panel to ensure that it meets our strict standards for performance and reliability. We then clean, repair, and upgrade any components as ...

Discover where to buy used solar panels for affordable eco-friendly energy. This ultimate guide will help you go green without breaking the bank.

How to purchase the dismantled photovoltaic panels

The following assessment is meant to guide PV asset managers and resellers who wish to responsibly manage decommissioned PV modules. It provides general recommendations to assess ...
