For months, experts examining renewable energy equipment imported from China have been quietly finding rogue components in solar inverters and large batteries, two people familiar with ...

U.S. energy officials are reportedly reassessing the security risks posed by Chinese-made components in renewable energy infrastructure after discovering hidden communication ...

Federal energy officials and national security experts are raising red flags after U.S. researchers discovered undocumented communication devices embedded in Chinese-made solar ...

In November, solar power inverters in the U.S. and elsewhere were disabled from China, highlighting the risk of foreign influence over local electricity supplies and causing concern among ...

LONDON, May 14 (Reuters) - U.S. energy officials are reassessing the risk posed by Chinese-made devices that play a critical role in renewable energy infrastructure after unexplained...

U.S. energy officials have launched an investigation after discovering unauthorized communication equipment embedded within Chinese-manufactured solar power inverters connected ...

Undocumented embedded devices have been found in Chinese inverters and batteries connected to power grids, raising growing concerns among US energy security officials.

Every solar panel and battery connected to the U.S. energy grid relies on a device few people ever consider: the power inverter. In May of 2025, U.S. experts found undocumented ...

This investigative article exposes the discovery of undocumented communication devices hidden in

Huawei s domestic solar-powered communication cabinet inverter grid-connected sales

Chinese-made solar inverters, creating unprecedented vulnerabilities in global power grids.

Undocumented embedded devices have been found in Chinese inverters and batteries connected to power grids, raising growing concerns among US energy ...

Given that Chinese firms like Huawei, Sungrow, and Ginlong Solis supplied over 200 GW of inverters to Europe, the risk of foreign control over energy infrastructure is not just a domestic concern.
