Establishment and installation of a solar park, solar energy storage, full administration of energy storage, with consulting from planning to implementation!

Hungary has set a target of 12 GW of solar capacity by the start of the next decade. However, grid capacity shortfalls have been dire, hampering primarily the rollout of large-scale solar.

Met Duna Energiatároló, a unit of the MET Group, an energy company based in Switzerland with Hungarian roots, has inaugurated a 40 MW / 80 MWh battery storage at the ...

Hungary's largest energy storage facility is currently under construction near Szolnok, with Chinese company Huawei involved in the solar energy project. The contract was signed in ...

With a nominal output of 40 MW and a storage capacity of 80 MWh, the facility marks the latest in a series of energy storage investments by MET Group across Europe.

In the city of Kaba, the company began building on the largest component of its Hungarian renewables portfolio: the almost 70-hectare Kaba Solar Park, which will offer electricity to more than 20 thousand ...

Solar power in Hungary has been rapidly advancing due to government support and declining system prices. By the end of 2023 Hungary had just over 5.8 GW of photovoltaics capacity, a massive ...

In 2024, the company acquired French battery storage developer Comax, and it now plans to expand co-located BESS installations alongside solar power plants across multiple countries.

MET Group has launched Hungary's largest battery energy storage system at the Dunamenti Power Station, a 40 MW / 80 MWh plant supporting national energy transition goals.

Hungarian Energy Storage Company solar Power Station

Hungary's energy sector is undergoing a profound transformation. Once heavily dependent on conventional power sources, the country has emerged as a regional leader in solar energy ...
