By enabling large-scale, grid-forming storage projects like Eurimbula, SMA Australia and Elements Green are helping to shape a resilient, reliable, and renewable energy system--ready to ...

Finnish energy giant Wärtsilä has announced the latest addition to its massive network utility-scale battery energy storage system (BESS) projects in Australia: a record-breaking 1.5 GWh...

From enhancing grid stability to unlocking flexibility and operational efficiency, our utility-scale battery energy storage solutions are built for real-world performance.

The biggest DC-coupled solar hybrid project in Australia has received grid approval - a landmark that will help push solar output into evening peaks, where it is needed most.

Both projects strengthen the integration of renewables, increase grid flexibility, improve availability and efficiency of supply and contribute, in general, to a more self-sufficient, secure, ...

Simultaneously, Octopus Australia acquired the Dunmore Solar Farm and Battery project in Queensland from Samsung C& T Renewable Energy Australia. This hybrid project combines a ...

UK-based Elements Green has secured grid connection approval for its first hybrid project in Australia, the Eurimbula Hybrid Facility. This project will feature a 696-MWp solar farm ...

Hybrid BESS combines renewable generation, such as wind or solar, with battery storage, operating together behind a single grid connection point. While there are not any operational hybrid ...

Wärtsilä Energy Storage has announced plans to develop what it claims will be the largest DC-coupled hybrid battery energy storage system (BESS) in Australia's National Electricity ...

Hybrid energy storage projects in Australia

Dunmore Solar-Plus-Storage Project In Queensland, Octopus Australia has acquired the Dunmore hybrid scheme from Samsung C& T's renewable energy arm. The project will comprise a ...
