-----

Founded in 2002, Shenzhen INVT Electric Co., Ltd. (abbreviated as "INVT", stock code: 002334) is a global leading provider of products and solutions in industrial automation and energy power.

INVT provides excellent products and solutions for urban water supply, heating supply, large musical fountains and other equipment to help reducing energy consumption and improving production ...

INVT Hybrid Inverter has an intelligent control system that can continuously monitor and adjust the state of the system. In case of a system fault or device fault, the fault information will be ...

INVT solar inverter has a unique product technology advantage in product stability, power efficient transformation, low harmonic current harmonics and grid security access, which can be widely used ...

The inverter can be used to optimize self-consumption, store in the battery for future use or feed in to public grid. Work mode depends on PV energy and user's preference.

It contains sections on safety precautions, product overview, installation guidelines, keypad operation, commissioning guidelines, function parameters, fault diagnosis and solutions, and appendices with ...

INVT has a total of 4 major core products, namely variable frequency drive, motion control, UPS, and renewable energy.

INVT (Shenzhen INVT Electric Co., Ltd) has been concentrating on industry automation and energy power since its foundation in 2002 and is committed to "Providing Excellent Products and Services, ...
