Understand the full story: Dive deep into the CES Iwaki Solar PV Park report and gain access to vital information such as plant name, technology, capacity, status, plant proponents, and owner stakes.

Nozomi Energy will convert a 21MWAC solar power plant in Iwaki from FIT to FIP and supply the generated power to Tohoku EPCO for its PPA with JR East. More details in the article.

The 42 MW (direct current) Iwaki Mega Solar Power Plant is located in Iwaki City, Fukushima Prefecture, Japan. The project covering an area of 50 hectares can generate up to 48 million kWh of electric...

Pacifico Energy K.K. kicks off construction of its second solar power plant in the Tohoku region, the 42 MW (DC) Iwaki Mega Solar Power Plant, located in Iwaki City, Fukushima Prefecture. ...

Get to know the projects' power generation capacities in MWp or MWAC, annual power output in GWh, state of location and exact location on the map, name of developer, year of connection to the electric grid, land size ...

Marubeni Corporation's fully owned subsidiary, Mibugawa Power Company ("Mibugawa"), held an opening ceremony today for a mega-solar power station named Iwaki Solar Power Station ...

We are pleased to announce that the Pacifico Energy Iwaki Solar Power Plant has commenced its commercial operation as from April 13, 2020.

Iwaki Mega Solar PV Park is a ground-mounted solar project which is spread over an area of 50 hectares. The project generates 4.8GWh electricity thereby offsetting 30,000t of carbon dioxide emissions (CO2) a year.

With a capacity of 31.5MW, the Iwaki plant will supply approximately 35 million kWh/year to JR East, saving around 16,500 tons of carbon dioxide emissions. Nozomi Energy will continue to contribute to Japan's ...

Iwaka Solar Power Plant

Pacifico Energy has started construction of the 42MW Iwaki Mega Solar Power Plant, located in Iwaki City, Fukushima Prefecture. This is Pacifico's second solar plant in the Tohoku region.
