Are JA Solar panels cheaper?

The nationwide average cost per watt for a solar panel installation is \$3.03, so JA solar panels are significantly cheaper. Those are the averages, but the total cost for a solar installation will vary per project, and the price can change based on factors like local labor cost, distribution, state solar rebates and incentives, and more.

Are JA Solar solar panels TUV certified?

The DC cables used in JA Solar's household PV systems are TUV certified to EN50618:2014, with a voltage of 1,500 V, ensuring stable and reliable operation in harsh environments for 25 years. Leading Solar PV Panel Manufacture now in India. Now get BIS Certified Solar System, PV Cells, and Other Solar Products at the best price.

Who makes JA Solar panels?

Join the 1,587 homeowners who got free quotes in the past 30 days. JA Solar Holdings is based in Shanghai, China, and it manufactures solar panels and a variety of solar-related materials for residential and commercial applications.

Does JA Solar install solar panels?

As we discussed above, JA Solar is not an installer and only manufactures PV equipment. As such, you'll need to choose a solar panel installer that carries JA panels and work with the provider to have your system installed.
