How big is the microinverter market?

The three phase segment is anticipated to cross USD 800 million by 2034. The microinverter market size crossed USD 2.9 billion in 2024 and is estimated to grow at a CAGR of 10.6% from 2025 to 2034, driven by rising demand for plug-and-play solar systems.

Who are the major players in the microinverter industry?

Some of the major players in the microinverter industry include Chilicon Power, Chisageess, Darfon Electronics, Deye Inverter Technology, Dongguan Maywah, Enphase Energy, Fimer Group. How big is the microinverter market?

How will microinverters drive market development?

Additionally, widespread acceptance of microinverters is expected to accelerate market development. Increased emphasis on grid resilience and the demand for quick restoration of power in blackout-prone areas will help drive product demand.

How will the European microinverter market grow in 2025?

The European microinverter market will grow at a CAGR of over 12.4% between 2025 and 2034. Rising investments in distributed solar generation, supportive net metering policies, and growing emphasis on energy security are expected to foster microinverter adoption.

The microinverter market size crossed USD 2.9 billion in 2024 and is estimated to grow at a CAGR of 10.6% from 2025 to 2034, driven by rising demand for plug-and-play solar systems.

What is a Microinverter? A Microinverter or a Solar micro-inverter is an extremely small device used to convert DC to AC. These inverters are so small that they are used as plug-and-play. ...
