How big is the electric vehicle market in Kuwait?

A recent report by Astute Analytica predicts phenomenal growth for the electric vehicle (EV) market in Kuwait, forecasting a market value of \$1.12 billion by 2032, up from \$51.2 million in 2023. This represents a staggering compound annual growth rate (CAGR) of 42% over the next eight years.

Is Kuwait ready for electric vehicles?

Kuwait achieved a significant milestone in electric vehicle (EV) readiness, securing the number three ranking in the Gulf Cooperation Council (GCC) region and number 14 globally (UAE 7th, Qatar 9th, and Saudi Arabia 21st) according to the Global Electric Mobility Readiness Index's 2023 report.

Who makes electric cars in Kuwait?

Kuwait's electric vehicle market is dominated by Original Equipment Manufacturers (OEMs) such as BMW, Hyundai, and Toyota at an overwhelming level of 95.31% of the market share; this is so since brand awareness and dependability are key. These well-established car makers have a strong advantage in terms of consumer trust.

Can EVs be used in Kuwait?

Adopting electric vehicles (EVs) can greatly benefit Kuwait. Nevertheless, there are a handful of hurdles to overcome before this type of vehicle is widely used. One of the major worries among potential EV buyers is that there is no adequate public fast-charging network. At present, there are about 40 charging stations in the country.
