BESS e-Container: large high quality battery energy storage systems, scalable to up to 60 MWh of modular capacity.

The large RETRON 4000 is ideally suited for storing and transporting large quantities of lithium-ion batteries, for example from e-cars.

With advancements in container design and a renewed focus on safety, we can mitigate the risks associated with lithium-ion batteries and pave the way for a more electrified and sustainable future.

The LithiumSafe(TM) Battery Box is designed for safely storing, charging and transporting lithium ion batteries. The most intensively tested battery fire containment solution on the market, engineered to ...

Lithium-ion battery storage containers are specialized enclosures designed to safely house and manage lithium-ion battery systems. They incorporate thermal regulation, fire ...

Pulse LiPo-Lithium Battery Box - Fireproof Safe Storage for RC Toy Enthusiasts - Smoke & Soot Filtration, Secure Charging - Lightweight Toy Box for 2 Batteries, 240 x 165 x 80mm

Plug-and-play container design allows for easy installation with minimal on-site labor. Features LiFePO4 batteries, a safe, reliable, and long-life energy source. Simple expansion by connecting multiple units ...

What Is a Lithium Battery Box? A lithium battery box is an enclosure designed to safely store and operate lithium-ion or lithium-iron phosphate (LiFePO4) batteries. These boxes offer ...

Our expertise extends to the design and manufacturing of specialized lithium battery storage containers, ensuring the safe handling and transportation of volatile materials.

Store your electric car battery in an EV battery storage container. Explore our range of containers designed to

Lithium Electric Container

protect battery performance and maintain safety.
