Humboldt provides sample containers for acquiring material samples for laboratory use. Both jars and cans are available in a range of sizes.

Whether you need a mobile lab for offshore testing, field diagnostics, or temporary cleanroom functions, we deliver a solution that works. Offshore-rated structure is available as an option. These containers ...

Formalin biopsy containers are supplied with leakproof closure with an O-ring, ensuring total contents protection. Graduated lab containers provide and enable accurate and precise measurements of ...

Container-based laboratories are modular, portable research environments built within shipping containers or similar structures. These labs are designed to be self-sufficient, with built-in ...

This container is not meant for long hold time storage but as an alternative to liquid supply in a lab or plant operation. Equipped with a discharge device and casters, liquid cryogenics can be available on ...

Easy Access Storage Co. Inc. offers a smart, scalable solution: shipping container units customized for scientific research, lab testing, and environmental monitoring.

At first glance, the TLS negative pressure lab container may resemble an ordinary shipping container. But within, its air-tight structure, ventilation logic, and isolation design provide a ...

Our patent-pending folding mechanism allows the entire container unit to collapse vertically--shipping 4 units in the space of 1. Once on-site, it unfolds smoothly into a fully walled, lockable space within ...

AtmosBag can serve as a portable laboratory in the field, isolating and protecting samples and providing a clean environment for conducting tests and inspections.

# Low-pressure folding container for field research

Engineered for fast setup, minimal transport costs, and multi-unit modular connection, our Flat Pack Container House is the ideal choice for those seeking a cost-effective, eco-friendly, and versatile ...
