Mauritania secures EUR39M French loan to build 10 solar power plants, boosting renewable energy infrastructure and expanding clean electricity access across the nation.

Featuring an impressive 160 megawatts (MW) of solar power, 60 MW of wind energy, and a robust 370 megawatt-hours (MWh) battery storage, this project is not just a power plant; it's a ...

In a significant step towards energy transition, Mauritania signed a public-private partnership agreement worth \$300 million on Friday, September 12, in Nouakchott to construct a ...

This project, the first of its kind in the country, will combine 160 MW of solar power with 60 MW of wind power. It will be operated for fifteen years under a public-private partnership that ...

The Mauritanian government has signed a landmark agreement to build the country's first hybrid renewable power plant, combining 160 MW of solar, 60 MW of wind and 370 MWh of battery ...

Nouakchott, Mauritania -- In a landmark move toward sustainable energy development, Mauritania has signed its first public-private partnership (PPP) in the energy sector, paving the way ...

Mauritania's current energy sector relies heavily on fossil fuels and imported electricity, particularly in remote and rural areas. This project is intended to help reduce dependency on thermal ...

The project will provide rural electrification for 40 localities in south-eastern Mauritania, through the installation of hybrid mini photovoltaic power plants and the construction of connecting lines.

Mauritania has signed its first public-private partnership (PPP) in the energy sector for the construction of a hybrid solar and wind facility.

Mauritania has signed its first independent power producer contract, a \$300 million agreement with Iwa Green
