Discover how a new 10MW solar plant in Moka, Mauritius, is advancing the nation's 60% renewable energy goal with innovative battery storage and green hydrogen production.

Mauritius faces a significant challenge: its electricity production relies heavily on imported fossil fuels, leading to high costs and environmental concerns. To tackle this challenge and create a ...

We're a solar energy company in Mauritius that creates & installs full grid-tied solar systems & offers solar power, EV charging, & home solar solutions. Visit us!

While renewable energy remains central to our vision, meeting growing energy demands requires firm power generation through conventional means. To address this, we are pursuing projects that ensure ...

The 10 MW solar plant at Plaine des Roches connects to the CEB's Amaury substation via a 4.5 km, 22 kV line. The facility utilizes 20,328 bifacial panels across 12 hectares, projecting an annual output of ...

Mauritius offers a diverse range of opportunities for investors looking to participate in its renewable energy transition: Utility-Scale Projects. Development of large-scale solar photovoltaic (PV) farms, ...

Affordable on- and off-grid renewable energy with LIXI Lithium battery storage for your Mauritian home and business. Partner for Deye, Growatt and MPP Solar inverters.

Our portfolio includes hybrid energy generation devices and a pre-payment solution, seamlessly delivering an end-to-end service for clean energy production and transparent consumption of ...

Last year, the Indian Ocean island nation signed four power purchase agreements for renewable energy from solar PV and battery energy storage system (BESS) hybrid facilities.

Mauritius solar thermal solar hybrid power station

o The 2030 energy transition roadmap provides for an estimated investment of USD 1.35 billion in the sector by horizon 2030, encompassing generation from solar, wind, biomass, hybrid renewable ...
