Why is Alcazar energy launching a wind farm in North Macedonia?

Daniel Calderon, Co-Founder and Managing Partner of Alcazar Energy, said: "We are thrilled to launch a major wind farm project in the Western Balkans, providing North Macedonia with clean, affordable electricity and creating local jobs. Alcazar Energy sees North Macedonia as a promising investment location for renewable energy.

How will North Macedonia help reduce energy shortages?

Due to North Macedonia's grid connections with Greece, Bulgaria, Serbia and Kosovo, the project will help to both reduce energy shortages and support the transition to renewable energy in the Western Balkans and Southeast Europe. Daniel Calderon, Co-Founder and Managing Partner of Alcazar Energy, said:

Is North Macedonia ready for Energy Independence?

Hristijan Mickoski, Prime Minister of North Macedonia, stated: "We are standing ahead of the largest investment in renewable energy sources that we ever had. This investment marks the beginning of the government's policy to create energy independence for Macedonia.

How many wind turbines are there in North Macedonia?

The Bogdanci wind park, North Macedonia's first wind energy facility, currently operates with sixteen wind turbines, each with a capacity of two to three megawatts. Plans to expand this wind park aim to further boost clean energy production in the country.

From Coal to Cool: Macedonia's Energy Makeover North Macedonia's energy mix used to resemble a smoky caf&#233; - heavy on coal, light on innovation. But here's the kicker: The country's ...
