---

Nexeon: Focuses on high-performance sodium-ion cathode materials for energy storage. Faradion: Pioneers in sodium-ion battery design, targeting automotive and stationary storage.

These companies specialize in developing rechargeable batteries that use sodium ions instead of traditional lithium ions, offering promising alternatives for energy storage solutions.

Nordic Batteries manufactures its eENERGY high-energy battery modules and ePOWER high-power battery modules in Norway using battery cells from Norwegian manufacturers and its own ...

Explore the top 6 sodium-ion battery companies in 2025 driving sustainable energy forward with groundbreaking innovations.

Detailed info and reviews on 5 top Energy Storage companies and startups in Norway in 2026. Get the latest updates on their products, jobs, funding, investors, founders and more.

We develop battery modules, racks and energy storage systems designed to power industrial applications across challenging sectors, including construction, maritime, defence, and grid systems. ...

Top sodium ion battery companies like CATL, Natron Energy, and Faradion, leading in renewable energy storage with sustainable and cost-effective solutions.

Discover all relevant Sodium Ion Battery Companies in Norway, including Vianode and FREYR

Natron Energy is safely changing how energy is stored and consumed with our sodium-ion battery technology. Learn more!

Explore the top 8 sodium battery manufacturers and sodium-ion battery companies to find advanced
