When a patient has an operation, a surgeon cuts open their body in order to remove, replace, or repair a diseased or damaged part. Charles was at the clinic recovering from an operation on his arm.

Operation can refer to medical surgery, a military campaign, or mathematical methods, such as multiplication and division. Operation comes from the Latin word *opus* ("work") and can refer to a ...

a process of a practical or mechanical nature in some form of work or production: a delicate operation in watchmaking. a course or procedure of productive or industrial activity: building operations.

Here are the three different working modes for energy storage; use them according to your area's needs. Self-consumption mode is best for those locations where the cost of grid-tied ...

In this paper, we designed and evaluated a linear multi-objective model-predictive control optimization strategy for integrated photovoltaic and energy storage systems in residential buildings by using ...

In this paper, the optimal operation of PV-BESS based power plant is investigated. The operational scenarios are firstly partitioned using a self-organizing map (SOM) clustering based ...

To address the instability of solar energy production and users' electricity demand, the integration of a battery energy storage system (BESS) can mitigate the issue of electricity ...

Noun operation (countable and uncountable, plural operations) (uncountable) The method by which a device performs its function.

1. an act or instance, process, or manner of functioning or operating.

The strategy categorizes the real-time operation modes of the integrated PV-storage LVDC power supply

Operation mode of photovoltaic energy storage

system into four major categories: full DC operation mode, AC-DC operation mode, ...

OPERATION meaning: 1 : a process in which a doctor cuts into someone's body in order to repair or remove a damaged or diseased part; 2 : a usually small business or organization

Definition of operation noun in Oxford Advanced Learner's Dictionary. Meaning, pronunciation, picture, example sentences, grammar, usage notes, synonyms and more.
