This paper explores the potential of hydrogen geologic storage (HGS) in China for large-scale energy storage, crucial for stabilizing intermittent renewable energy sources and managing ...

reforms have to be ratcheted up in Indonesia. The nascent literature on energy policy reform focuses on the technocratic aspect (Resosudarmo et al., 2023), the political economy of regional energy ...

As Paramaribo marches toward its 2030 renewable energy targets, one thing's clear: energy storage system equipment isn't just supporting the grid - it's rewriting Suriname's energy playbook.

As a global pathfinder, leader and expert in battery energy storage system, BYD Energy Storage specializes in the R& D, manufacturing, marketing, service and recycling of the energy storage ...

As we approach 2026, Paramaribo's energy authority is piloting something pretty clever - using EV batteries as grid storage during peak demand. Early estimates suggest this vehicle-to-grid (V2G) ...

policy manifesto for the period 2024-2029. We delved into pressing issues facing the energy storage sector and heard from industry representatives about what is needed to foster the deployment of ...

Summary: The recently signed Paramaribo energy storage cell project marks a transformative step toward stabilizing Suriname's renewable energy grid. This article explores its technical framework, ...

Let's cut to the chase - energy storage might sound like tech jargon, but it's literally the missing puzzle piece in Suriname's renewable energy game. When Paramaribo dropped its 2025 policy update last ...

The policy proposes to promote the large-scale application of energy storage, and support the integrated development of new energy sources such as photovoltaics and energy storage facilities.
