The Contracts and Procurement Transparency Portal is the public clearinghouse for all information related to the District Government's contracting and procurement efforts.

The containerized mobile foldable solar panel is an innovative solar power generation device that combines the portability of containers with the renewable energy ...

The Solarfold photovoltaic container can be used anywhere and is characterized by its flexible and lightweight substructure. The semi-automatic electric drive brings the mobile photovoltaic system ...

The Contracts and Procurement Transparency Portal was created by the Office of Contracting and Procurement (OCP), under the leadership of Mayor Muriel Bowser, as a public clearinghouse for all ...

Enter first three digits of NIGP code or a keyword and select from the list Dates By Fiscal Year By Contract Dates By Awarded Date

This project constitutes a DC-coupled photovoltaic-storage integrated system, incorporating folding photovoltaic panels with energy storage functionality. It is designed for flexible grid dispatch and peak ...

These resources provide information and best practices for federal facilities interested in procuring on-site solar photovoltaic (PV) systems.

Welcome to the OCP Contracts and Procurement Transparency Portal! This portal is a public clearinghouse for all information related to the DC Government's contracting and procurement ...

In a nutshell, folding PV panel containers overcome traditional fixed solar panel limitations of mobility and efficiency by incorporating modern photovoltaic technology with ...

Photovoltaic Folding Container DC Procurement Contract

The greatest merit of folding photovoltaic panel containers is their high degree of mobility, avoiding the large occupation of land by traditional solar power generation systems. ...
