What is a Type 4 telecom power outdoor cabinet?

The Type 4 telecom power outdoor cabinet is a new generation platform designed to meet customer needs, give configuration flexibility and supports a variety of applications. The cabinet is well suited for power, batteries and telecom equipment.

What is an outdoor Telecom cabinet?

Technologies such as digital transformation, Industry 4.0 and Big Data create revolutionary differences in our lives. Outdoor Telecom Cabinets are rugged enclosures designed to protect telecommunications equipment from environmental factors while providing secure access for maintenance.

Why should you choose a Type 4 outdoor power cabinet?

within the outdoor plant depends upon a cool, dry and secure environment for the electronics such as the DC power and Telecom equipment. The Type 4 Outdoor Power Cabinet more than accomplishes this with its Thermal Management that will keep sensitive electronics functioning in extreme environments.

What are the advantages of a telecom cabinet?

The cabinet works very well as a stand-alone power and/or battery backup solution and provides additional space for telecom equipment. The fan and filter has the advantage that a large amount of air can be exchanged, giving very high cooling performance with low power consumption.
