Search all the solar photovoltaic (PV) projects, bids, RFPs, ICBs, tenders, government contracts, and awards in United States (US) with our comprehensive online database.

Below is a sample search result showing the newly published government contracts and bids in renewable, solar and wind energy. These include government RFPs, RFTs, RFIs, RFQs in ...

This approach is intended to allow any input parameter in the model to be varied by up to a factor of two (up or down) to assess its impact on cost. All costs reported are represented two ways: Minimum ...

Contract opportunities are procurement notices from federal contracting offices. Anyone interested in doing business with the government can use this system to search opportunities. ...

This year, we introduce a new PV and storage cost modeling approach. The PV System Cost Model (PVSCM) was developed by SETO and NREL to make the cost benchmarks simpler and more ...

Bid on readily available solar tenders with the best and most comprehensive tendering platform, since 2002. Bidding for solar tenders is extremely lucrative for companies of all sizes. ...

Learn about the essential elements of a solar RFP; receive introductory guidance on how to evaluate any proposals received; and be directed towards tools, resources, and sample ...

Discover how to boost battery storage profits with smart bidding strategies, price forecasting, and market participation tips.

Consider this your cheat sheet for 2025's hybrid projects - where solar panels flirt with battery storage systems, and only the savviest bidders get second dates with utility clients.
