What is glass for Europe?

Glass for Europe is officially a member of the European Solar PV Industry Alliance, an initiative launched in December 2022 by the European Commission. The Alliance gathers key players in the value chain of the solar energy industry and aims at scaling up the production of solar PV panels and value chain components in Europe.

How can glass for Europe help re-build a European solar industry?

Glass for Europe represents almost 90% of flat glass production in the EU and its members can play a key role in re-building a European solar industry in the EU. The main goal of the European Solar PV Industry Alliance is to mobilise finance for European solar PV projects to increase the manufacturing capacity.

Who is AGC Glass Europe?

As the European branch of AGC, a world leader in flat glass, AGC Glass Europe has over 100 sites throughout Europe and around 15,300 employees. Solar systems for use in energy generation, such as photovoltaics (PV) and concentrated solar power (CSP), are a fast-growing market with enormous potential for reducing CO<sub>2</sub> emissions.

What is solar glass?

Solar glass is similar to transparent solar panels as they look a lot like glass panes. The glass has a thin film of solar PV technology over it which can generate electricity from the sun.

In the context of the growing focus on summer comfort introduced by the Energy Performance of Buildings Directive (EPBD) and the upcoming EU Heating and Cooling Strategy, ...

The members of the initiative EU ProSun Glass are producing some 50% of the solar glass produced in the EU. We are standing for solar glass products with maximum transmittance and ...

This is a first on an industrial scale: glass from end-of-life photovoltaic panels will be used to manufacture flat glass, this glass mainly intended for the construction and automotive sectors. The ...

Glass is an essential component of solar panels and Building Integrated Photovoltaics (BIPV) and it represents between 65% and 95% of solar energy modules weight. Glass for Europe ...

# Solar Glass EU

The Europe Solar Photovoltaic Glass Market is projected to witness market growth of 27.3% CAGR during the forecast period (2024-2031). The Germany market dominated the Europe Solar ...

Based in Louvain-la-Neuve (Belgium), AGC Glass Europe produces, processes and markets flat glass for the construction sector (external glazing and interior decoration), the automotive industry and ...

AGC offers extra clear float glass products for a broad range of solar applications. Your single source: High-efficient float glass production, glass coating, glass processing as well as high-capacity ...

With our high-performance solar glass for photovoltaics, solar thermal and the greenhouse sector, we are fulfilling our social responsibility and making a significant contribution to ...

Glass for Europe has released a new paper highlighting the key role of solar control glass in improving summer comfort and enabling passive cooling in buildings.

The europe solar PV glass market is estimated to grow at a CAGR of 26.46% from 2025 to 2033. It is projected to reach 23.58 billion by 2033.
