Explore the crucial role of renewable energy in transforming the cement industry towards sustainability. This article discusses the significant environmental impacts of traditional cement ...

Holcim Philippines Inc. is accelerating its move toward cleaner manufacturing through a strategic partnership with regional renewable energy platform Peak Energy, aimed at advancing ...

Franco-Swiss cement giant Holcim (SWX:HOLN) has signed a deal with Singapore's Peak Energy, committing to procure electricity from a 25-MW behind-the-metre solar park in the Philippines.

Peak Energy signed a 20-year PPA with Holcim for a 25 MW behind-the-meter solar project supplying cement plants in La Union and Bulacan, Philippines.

Holcim Philippines has signed a long-term power supply agreement with Peak Energy to install a large onsite solar system at two of its cement plants. This will allow the company to generate ...

Synhelion and Cemex announced today a significant milestone in their joint effort to develop fully solar-driven cement production: the scaling of their technology to industrially-viable levels.

An innovative and efficient solar power plant solution has been developed for cement factories. On an annual basis, solar PV systems in cement plants may save 22,941 tonnes of CO₂.

The renewables developer and power producer, itself owned by US investment firm Stonepeak Infrastructure Partners, will build, install, operate and maintain the facilities, while Holcim ...

This marks a significant milestone in the companies' journey toward the world's first fully solar-powered cement plant. An early 2022 energy lab demonstration in Spain saw researchers ...

Holcim has signed a long-term power purchase agreement (PPA) with Peak Energy to deploy one of the

Solar Power Cement

Philippines" largest behind-the-meter industrial solar projects, covering two of its ...
