I've owned a Solar Edge system (8kW) for 8 years, and I'm currently on my third inverter. The current one has been functioning well for the last year, but I had various issues with the first two.

Are you wondering what kind of results you'd get if you added a home solar system to your roof? Homeowners are sharing their results online -- and the real-world data might surprise you!

"I never had any intention to install solar power to my house, but the more I watch these videos, the more interested I get!" wrote one user.

A Redditor posted a lengthy review of their experience with the solar panel installation process and the first 11 months of use in a subreddit dedicated to homesteading.

So now that you have solar panels on your home, what do you wish you'd known before you did it? Looking for the gotchas that I need to look out for. If it helps, I'm in Houston, Texas, my ...

Solar power continues to shine in the United States as more homeowners install rooftop systems than ever before. A survey by Aurora Solar found that 76% of homeowners consider home solar a...

A place to discuss and review the best solar panels, inverters, battery storage. Guide to on-grid, hybrid and off-grid solar power systems.

A few weeks ago, Electrek readers took to the comments to share their own real-world solar numbers. Here are some of the best!

The survey revealed that more homeowners are considering solar systems paired with battery storage -- 69% of respondents reported wanting backup power to reduce their electric bills.

Ask your questions about solar modules, mounts, inverters or any other part of your solar energy system. If
