-----

European Energy sells 50% of its 111 MW Saldus solar and battery project in Latvia to Sampension, one of Denmark's largest pension funds. The project combines a 65 MW solar PV plant ...

The 120.8 MW project, built by Lithuanian renewables developer Green Genius, is the largest single-site project in the Baltics. Work is currently underway on constructing a 50 MW/100 ...

This project marks a critical milestone for Latvia, as it combines a utility-scale solar park with a large-scale BESS. The integration of battery storage is a game-changer for the grid.

Green Genius powers Latvia with a 121-MW bifacial solar park and co-located, liquid-cooled storage, shifting sun to evening peaks, unlocking grid services, substation savings, and ...

Riga, Latvia - Slovenia's NGEN Group is making a meaningful push into the Baltic energy market with a substantial investment in Latvia. The company is poised to acquire a battery energy ...

Denmark-based European Energy has received EUR 37.9 million in long-term financing from Luminor to build a hybrid solar and battery project in Saldus, Latvia. The plan includes a 65 MW ...

Lithuanian power producer Green Genius has launched the largest single-site solar project in the Baltic States--a 120.8MW facility in Latvia, featuring 183,000 modules and a planned ...

European Energy has obtained more than EUR37 million in long-term project financing from Luminor Bank to develop a hybrid solar and battery energy storage facility in Saldus, Latvia, the ...

The project is scheduled for completion in August next year. "Securing non-recourse project financing proves the bankability of EE's hybrid (BESS-coupled) projects, while supporting the ...
