By reducing its reliance on non-renewable energy sources, Vatican City significantly decreases its carbon emissions. The solar initiatives contribute to cleaner air and set a powerful example for ...

In a quiet corner of the Roman countryside, an ambitious project is taking shape--one that seeks not only to power the Vatican City entirely through renewable energy, but also to embody the...

Part of Pope Francis' dream was to ensure the city state in Rome ran on green energy. An agrivoltaic plant on Vatican property is the result.

All information about vacant positions and the required candidate qualifications will be published here. Anyone interested will be able to submit their application through the website."

In 2025, the Vatican City flipped the switch on something much bigger than its size. A full transition to solar power. So from now on, the seat of the Catholic Church runs almost entirely on ...

VATICAN CITY (CNS) - Pope Francis appointed two special commissioners to start work on building a dual-use solar system on a Vatican property outside of Rome that could supply the ...

Italy has agreed to a Vatican plan to turn a 430-hectare (1,000-acre) plot of land north of Rome into a vast solar farm that will generate enough electricity to meet the needs of Vatican...

This tradition got a recent boost. The late Pope Francis' goal of powering the Vatican by 100% solar energy is happening now as Vatican City becomes the first fully powered solar state.

In 2024, the Vatican announced a new solar plant to be built on Church-owned land outside Rome, positioning the city-state to become the eighth country in the world to run entirely on renewable ...

Before his death, Pope Francis fulfilled his green energy vision with a massive solar installation that now

Solar energy jobs vatican city

powers all of Vatican City's operations. Italian energy company ACEA completed ...
