Are solar salespeople paid on commission?

In the solar industry, salespeople are almost always paid on commission. The sales people that are paid commission are usually not placed on any fixed salary range. Most companies prefer to go this route rather than retain a lot of sales people on their employment list.

How do solar salespeople get paid?

The majority of solar salespeople are paid on a straight commission pay structure without a base salary. Their commission structure can be a lot more complicated than canvassers and territory managers because their overall sales compensation is based on several different commission calculation methods. These methods include:

How does a solar sales team work?

To help drive the sale of solar-powered systems, it is standard for companies in the solar energy industry to structure employee pay around commissions. Similar to many other sales-oriented industries, sales teams are composed of different supporting roles that work collaboratively to close deals.
