Between mid-January and early February, Spain advanced environmental permitting for more than 1.6 GW of renewable energy projects, with solar PV accounting for over 70% of the total. ...

Spain is one of Europe's largest solar photovoltaic (PV) energy producers. In 2021, solar accounted for 16% of Spain's installed capacity and 8% of the country's power generation as a ...

Spain shines brightly as Europe's utility-scale solar energy leader, according to new data from Global Energy Monitor.

Q ENERGY continues to expand its presence in the north of Spain and started construction of a new PV plant in the province of Teruel. The project will comprise more than 75,000 ...

Aquila Clean Energy, a leader in renewable energy development, has been authorised to construct five new solar PV plants across Spain. Located in Palencia, Cordoba, Granada, Leon, and ...

Photovoltaic cells have been the building blocks of a solar power boom spurred by Prime Minister Pedro Sánchez, whose support for renewables, combined with Spain's abundant sunshine, ...

In 2023, installed solar photovoltaic power increased by 28%, bringing an additional 5,594 MW to the Spanish generation pool, the highest figure since records began. As a result, this ...

Spain's photovoltaic expansion reached new heights in 2024, with an additional 11 TWh of solar energy added to its grid. Renewable energy expert Daniel Pérez attributes this success to ...

Throughout the first seven months of 2025, renewable energy developers submitted a staggering portfolio totaling 5,141 MW of large-scale solar projects for environmental permitting ...

Through its subsidiary in Spain, Iberdrola group has begun commissioning the Francisco Pizarro project,

Spain builds energy photovoltaic site

which, with its 590 MW installed capacity, will provide clean energy to 334,400 homes a year and will ...
