How much does a new electric car cost?

The average cost of a new electric car is 10% higher than the price of a gas-powered vehicle--which costs an average of \$48,451. But fuel costs can add up to significant savings for EV drivers over time. Annual fuel savings range from \$1,363 to \$2,471 for these models with electric and gas-powered versions.

What is an EV charging cost calculator?

An EV Charging Cost Calculator is a digital tool designed to provide an estimate of how much it would cost to charge an electric vehicle. These calculators take into account various factors such as the type of charger used, electricity rates, and the vehicle's battery capacity.

How do you charge an electric vehicle?

When it comes to charging an electric vehicle, consumers generally have two primary options: public charging stations and home-based setups. Public charging often provides the convenience of faster charging speeds but usually comes at a higher per-kWh cost.

How much does an electric SUV cost?

Mass-market electric SUVs have lower five-year ownership costs, at \$67,719, but comparable mass-market ICE SUVs cost \$9,259 less over five years than their EV counterparts. Leasing costs are a significant factor in luxury vs. mass-market EV affordability.
